

## SAC 2003 Paper Count

| Track  | Submitted  | Published  |
|--|------------|------------|
| AI and Computational Logic                         | 9          | 4          |
| Agents, Interactions, Mobility, and Systems        | 23         | 7          |
| Bioinformatics                                     | 32         | 12         |
| Computational Sciences                             | 33         | 12         |
| Computer Applications in Health Care               | 34         | 11         |
| Computer Security                                  | 28         | 12         |
| Coordination Models, Languages and Applications    | 24         | 8          |
| Data Mining  | 61         | 16         |
| Database Technologies                              | 20         | 8          |
| Digital Contents for Education                     | 9          | 4          |
| Electronic Commerce Technologies                   | 25         | 11         |
| Embedded Systems: Appls, Solutions, and Techniques | 21         | 8          |
| Evolutionary Computing and Optimization            | 18         | 8          |
| Image and Video Databases                          | 8          | 4          |
| Information Access and Retrieval                   | 27         | 12         |
| Mobile Computing and Applications                  | 18         | 8          |
| Multimedia and Visualization                       | 24         | 12         |
| Parallel and Distributed Systems and Networking    | 28         | 10         |
| Programming Languages and Object Technologies      | 9          | 4          |
| Software Engineering: Apps, Practices and Tools    | 38         | 12         |
| Web Technologies and Applications                  | 38         | 12         |
| <b>Totals</b>                                      | <b>527</b> | <b>195</b> |
| <b>Acceptance Rate</b>                             | <b>37%</b> |            |
