

The 33rd ACM SIGAPP Symposium on Applied Computing ACM SAC'18

March 4-9, 2018 - PAU / BIARRITZ - FRANCE

ACM Symposium on Applied Computing (SAC) is a primary and international forum for applied computer scientists, computer engineering, and other computer related professionals to gather, interact, present, and disseminate their research and development work

Committees

Conference Chairs

Hisham M. Haddad
Kennesaw State University, USA
hhaddad@kennesaw.edu

Roger Wainwright
University of Tulsa, USA
rogerw@utulsa.edu

Publication Chair

Hossain Shahriar
Kennesaw State University, USA
hshahria@kennesaw.edu

Program Chairs

Dongwan Shin
New Mexico Tech, USA
doshin@nmt.edu

Maria Lancastre
University of Pernambuco, Brazil
mlpm@ecomp.poli.br

Posters Chair

Chih-Cheng Hung
Kennesaw State University, USA
chung1@kennesaw.edu

SRC Chair

John Kim
Utica College, USA
editoracr@gmail.com

Conference Vice-Chair

Richard Chbeir
Univ. of PAU & PAYS ADOUR, France
rchbeir@acm.org

Tutorials Chairs

Ernesto Exposito
Univ. of PAU & PAYS ADOUR, France
ernesto.exposito@univ-pau.fr

Philippe Arnould

UNIV PAU & PAYS ADOUR, France
philippe.arnould@univ-pau.fr

Local Arrangement Chairs

Philippe Lopisteguy
Univ. of PAU & PAYS ADOUR, France
lopis@iutbayonne.univ-pau.fr

Haritza Camblong Ruiz,
Univ. of País Vasco, Spain
aritza.camblong@ehu.es

Treasurer/Registrar/Webmaster

Hisham M. Haddad
Kennesaw State University, USA
hhaddad@kennesaw.edu

Steering Committee

Barrett R. Bryant, USA
Hisham M. Haddad, USA
Sascha Ossowski, Spain
Sung Y. Shin, USA
Roger Wainwright (Chair), USA

Main Tracks

- Business Process Management & Enterprise Architecture
- Collective Adaptive Systems and Middleware
- Practical Aspects of High-Level Parallel Programming
- Database Theory, Technology, and Applications
- Advances in COMPUTational Biomedical Imaging
- Computational Intelligence and Video and Image Analysis
- Cloud Computing
- Cognitive Computing
- Cyber-Physical Systems
- Data Mining
- Data Streams
- Bioinformatics
- Embedded Systems
- Internet of Things
- Programming Languages
- Smart Human Computer Interaction
- Information Access and Retrieval
- Recommender Systems: Theory and applications
- Object Oriented Programming Languages and Systems
- Reliable Software Technologies and Communication
- Middleware
- Mobile Computing and Applications
