AI and Computational Logic and Image Analysis (AI)

Track Chair: C.C. Hung, Southern Polytechnic State University, USA
Track Co-Chair: Agostinho Rosa, LaSEEB –ISR – IST, Portugal

Track Editorial 3

Experimenting with a Real-Size Man-Hill to Optimize Pedagogical Paths 3
Gregory Valigiani, University of Calais
Yannick Jamont, Paraschool Company
Claire Bourgeois Republique, University of Bourgogne
Raphael Biojout, Paraschool Company
Evelyne Lutton, INRIA Rocquencourt
Pierre Collet, University of Calais

An Hybridization of an Ant-based Clustering Algorithm with Growing Neural Gas Networks for Classification Tasks 8
Marco A. Montes de Oca, Monterrey Institute of Technology, Mexico
Leonardo Garrido, Monterrey Institute of Technology, Mexico
José L. Aguirre, Monterrey Institute of Technology, Mexico

Reinforcement Learning Agents with Primary Knowledge Designed by Analytic Hierarchy Process 18
Kengo Katayama, Okayama University of Science, Japan
Takahiro Koshiishi, Okayama University of Science, Japan
Hiroyuki Narihisa, Okayama University of Science, Japan

Estimating Manifold Dimension by Inverion Error 26
Shawn Martin, Sandia National Laboratories, USA
Alex Bäcker, Sandia National Laboratories, USA

Data Driven Approach to Designing Minimum Hamming Distance Polychotomizer……..... 31
Jie Zhou, Northern Illinois University, USA
Giovanni Pasteris, Northern Illinois University, USA

Variable Selection and Ranking for Analyzing Automobile Traffic Accident Data…….. 36
Huanjing Wang, The Unversity of Alabama, USA
Allen Parrish, The University of Alabama, USA
Randy K. Smith, The University of Alabama, USA
Susan Vrbsky, The University of Alabama, USA

Stochastic Scheduling of Active Support Vector Learning Algorithms …….. 42
Gaurav Pandey, University of Minnesota, USA
Himanshu Gupta, Indian Institute of Technology, India
Pabitra Mitra, Indian Institute of Technology, USA

Poster Papers

The T-detectors Maturation Algorithm Based on Match Range Model …….. 47
Dongyong Yang, Zhejiang University of Technology, China
Jungan Chen, Zhejiang University of Technology, China

A Comparison on Information Fusion Methods for Air Target Identification …….. 49
Dongseob Jang, McMaster University, Canada
Sung Shin, South Dakota State University, USA
Charlie Shim, South Dakota State University, USA
C.C. Hung, Southern Polytechnic State University, USA

Agents, Interactions, Mobility, and Systems (AIMS)

Track Co-Chairs: Henry Hexmoor, University of Arkansas, USA
Marcin Paprzycki, Oklahoma State University, USA
Niranjan Suri, IHMC / University of West Florida, USA

Mobile Agents for Network Management: When and When Not! **47**
Huy Hoang To, Monash University, Australia
Shonali Krishnaswamy, Monash University, Australia
Bala Srinivasan, Monash University, Australia

Agent Technology for Personalized Information Filtering: The PIA-System **54**
Sahin Albayrak, DAI-Lab of TU of Berlin, Germany
Stefan Wollny, DAI-Lab of TU of Berlin, Germany
Nicolas Varone, DAI-Lab of TU of Berlin, Germany
Andreas Lommatzsch, DAI-Lab of TU of Berlin, Germany
Dragan Milosevic, DAI-Lab of TU of Berlin, Germany

An Agent Model for Fault-tolerant Systems **60**
Avelino Francisco Zorzo, PURCS, Brazil
Felipe Rech Meneguzzi, PURCS, Brazil

A Distributed Content-Based Search Engine Based on Mobile Code **66**
Volker Roth, OGM Laboratory, LLC, USA
Ulrich Pinsdorf, Fraunhofer IGD, Germany
Jan Peters, Fraunhofer IGD, Germany

An Empirical Evaluation of Communication Effectiveness in Autonomous Reactive Multiagent Systems **74**
David Hurt, University of North Texas, USA
Paul Tarau, University of North Texas, USA

A Multi-Agent Approach for Solving Optimization Problems involving Expensive Resources **79**
Hoong Chuin Lau, National University of Singapore, Singapore
Hui Wang, University of Southern California, USA

Forming Resource-Sharing Coalitions: A Distributed Resource Allocation Mechanism for Self-Interested Agents in Computational Grids **84**
Linli He, Texas A&M University, USA
Thomas Ioerger, Texas A&M University, USA

Poster Paper

Reliability Analysis of Mobile Agent-based Systems **92**
Mosaab Daoud, University of Guelph, Canada
Qusay Mahmoud, University of Guelph, Canada

Approximate Reasoning in Human Decision Making (ARHD)

Track Co-Chairs: Robert John, De Montfort University, United Kingdom
Johnathan Garibaldi, University of Nottingham, United Kingdom

Fuzzy Approach to Outsourcing of Information Technology Services **94**
Ludmil Mikhailov, The University of Manchester, United Kingdom
Petco Tsvetinov, Queensland University of Technology, Australia

Bioinformatics (BIO)

Track Co-Chairs: Mathew J. Palakal, Indiana University Purdue University Indianapolis, USA
Sven Rahmann, University of Bielefeld, Germany
Birong Liao, Lilly Research Laboratories, USA

Track Editorial **99**

Efficient Discovery of Unique Signatures on Whole-genome EST Databases **100**
Hsiao Ping Lee, National Tsing Hua University, Taiwan
Tzu Fang Sheu, National Tsing Hua University, Taiwan
Yin Te Tsai, Providence University, Taiwan

Grid-based Management of Biomedical Data using an XML-based Distributed Data Management System **105**
Shannon Hastings, The Ohio State University, USA
Stephen Langella, The Ohio State University, USA
Scott Oster, The Ohio State University, USA
Tahsin Kurc, The Ohio State University, USA
Tony Pan, The Ohio State University, USA
Umit Catalyurek The Ohio State University, USA,
Dan Janies, The Ohio State University, USA
Joel Saltz, The Ohio State University, USA

A Complex Biological Database Querying Method **110**
Jake Yue Chen, Indiana University – Purdue University Indianapolis, USA
John Carlis, University of Minnesota, USA
Ning Gao, Indiana University – Purdue University Indianapolis, USA

PViN - A Scalable and Flexible System for Visualizing Pedigree Databases **115**
Eric Wernert, Indiana University, USA
Jagannathan Lakshmipathy, Indiana University – Purdue University Indianapolis, USA

Incremental Interactive Mining of Constrained Association Rules from Biological Annotation Data with Nominal Features **123**
Imad Rahal, North Dakota State University, USA
Dongmei Ren, North Dakota State University, USA
Amal Perera, North Dakota State University, USA
Hassan Najadat, North Dakota State University, USA
William Perrizo, North Dakota State University, USA
Riad Rahal, University of Iowa, USA
Willy Valdivia, Orion Intregrated Biosciences, USA

A Framework for Result Handling in Bioinformatics: an Application to Computer Assisted Drug Design **128**
Andrei Oliveira da Silva, LABIO – PPGCC/PUCRS, Brazil
Osmar Norberto de Souza, LABIO – PPGCC/PUCRS, Brazil

Graphical Rule-Based Representation of Signal-Transduction Networks **133**
James R. Faeder, Los Alamos National Laboratory, USA
Michael L. Blinov, Los Alamos National Laboratory, USA
William S. Hlavacek, Los Alamos National Laboratory, USA

Generating Association Graphs of Non-Co-occurring Text Objects using Transitive Methods **141**
Niranjin Jayadevaprakash, Purdue University, USA
Snehasis Mukhopadhyay, Purdue University, USA
Mathew Palakal, Purdue University, USA

An Approximation Algorithm for Haplotype Inference by Maximum Parsimony **146**
Yao-Ting Huang, National Taiwan University, Taiwan
Kun-Mao Chao, National Taiwan University, Taiwan
Ting Chen, University of Southern California, USA

Efficient Mass Decomposition **151**
Sebastian Böcker, Universität Bielefeld, Germany
Zsuzsanna Lipták, Universität Bielefeld, Germany

CAFISS: A Complex Adaptive Framework for Immune System Simulation **158**
Joc Cing Tay, Nanyang Technological University, Singapore
Atul Jhavar, Nanyang Technological University, Singapore

Object-Oriented Wound Healing in the Liver: a Class-Structured View of Fibrogenesis and a Glimpse of its Evolution **165**
Jacqueline Signorini, Université Paris 8, France
Patrick Greussay, Université Paris 8, France

Volume Fractal Dimensionality: A Useful Parameter for Measuring the Complexity of 3D Protein Spatial Structures **172**
Min Hu, Zhejiang University, China
Qunsheng Peng, Zhejiang University, China

A New Approach for Gene Prediction Using Comparative Sequence Analysis **177**
Rong Chen, University of Nebraska at Omaha, USA
Hesham Ali, University of Nebraska at Omaha, USA

Comparing Approaches to Predict Transmembrane Domains in Protein Sequences.. ..... **189**
Paul Davidsson, Blekinge Institute of Technology, Sweden
Johan Hagelbäck, Travelstart Nordic, Sweden
Kenny Svensson, Ericsson AB, Sweden

Design and Evaluation of CATPA: Curation and Alignment Tool for Protein Analysis **194**
Mehmet Dalkilic, Indiana University, USA
Arijit Sengupta, Indiana University, USA

Optimizing Syntax Patterns for Discovering Protein-Protein Interactions **199**
Conrad Plake, Humboldt-Universität zu Berlin, Germany
Jörg Hakenberg, Humbolt- Universität zu Berlin, Germany
Ulf Leser, Humboldt- Universität zu Berlin, Germany

Poster Papers

EXONSCAN: EXON Prediction with Signal Detection and Coding Region AligNment in Homologous Sequences **206**
Shu Ju Hsieh, National Tsing-Hua University, Taiwan
Yun Sheng Chung, National Tsing-Hua University, Taiwan
Chun Yuan Lin, National Tsing-Hua University, Taiwan
Chuan Yi Tang, National Tsing-Hua University, Taiwan

Tree-based Clustering for Gene Expression Data **208**
Baoying Wang, North Dakota State University, USA
William Perrizo, North Dakota State University, USA

Cleaning Microarray Expression Data using Markov Random Fields Based on Profile Similarity **210**
Raymond Wan, Kyoto University, Japan
Hiroshi Mamitsuka, Kyoto University, Japan
Kiyoko Aoki, Kyoto University, Japan

Prediction of Inherited and Genetic Mutations Using the Software Model Checker SPIN….. 212
Zubin Balsara, University of Texas at El Paso, USA
Steve Roach, University of Texas at El Paso, USA

Text-Based Summarization and Visualization of Gene Clusters 214
Pankaj Kankar, IBM Research Laboratory, India
Sougata Mukherjea, IBM Research Laboratory, India

Finding Saddle Points using Stability Boundaries 216
Chandan Reddy, Cornell University, USA
Hsiao-Dong Chiang, Cornell University, USA

Computer Applications in Health Care (CAHC)

Track Chair: Valentin Masero, University of Extremadura, Spain

Track Editorial.....218

An Analysis of Modeling Flaws in HL7 and JAHIS 220
Eduardo Fernandez, Florida Atlantic University, USA
Tami Sorgente, Florida Atlantic University, USA

Protecting Sensitive Patient Data via Query Modification 228
David Power, Oxford University, UK
Mark Slaymaker, Oxford University, UK
Eugenia Politou, Oxford University, UK
Andrew Simpson, Oxford University, UK

An Interactive Evolutionary Algorithm for Cochlear Implant Fitting: First Results.....235
Claire Bourgeois-Republique, University of Bourgogne, France
Gregory Valigiani, ULCO, France
Pierre Collet, ULCO, France

Data Logistics as a Means of Integration in Healthcare Applications.....240
Stefan Jablonski, University of Erlangen-Nuernberg, Germany
Sasch Müller, University of Erlangen-Nuernberg, Germany
Christian Meiler, University of Erlangen-Nuernberg, Germany
Rainer Lay, University of Erlangen-Nuernberg, Germany
Wolfgang Hümmer, University of Erlangen-Nuernberg, Germany

The Intensity Level Reduction in Radiation Therapy 246
Xiaodong Wu, The University of Texas, USA
John Abraham, The University of Texas, USA

Multilure Active Contours 251
Francisco Guerrero, Spain
Valentin Masero, University of Extremadura, Spain
Juan Leon-Rojas, University of Extremadura, Spain
Jose Moreno, University of Extremadura, Spain

Segmentation and Reconstruction of the Lung Volume in CT Images.....259
Michela Antonelli, Electronica, Informatica, Telecomunicazioni, Italy
Beatrice Lazzerini, Electronica, Informatica, Telecomunicazioni, Italy
Francesco Marcelloni, Electronica, Informatica, Telecomunicazioni, Italy

A Clustering-based Approach for Prediction of Cardiac Resynchronization Therapy.....264
Heng Huang, Dartmouth College, USA
Li Shen, University of Massachussetts Dartmouth, USA

Fillia Makedon, Dartmouth College, USA
Sheng Zhang, Dartmouth College, USA
Mark Greenberg, Dartmouth Medical School, USA
Ling Gao, Dartmouth Medical School, USA
Justin Pearlman, Darthmouth College, USA

Temporal Analysis of Infectious Diseases: Influenza 271
Kaja Abbas, University of North Texas, USA
Armin Mikler, University of North Texas, USA
Robert Gatti, University of North Texas, USA

Adaptive and Fault Tolerant Medical Vest for Life-Critical Medical Monitoring…… 276
Roozbeh Jafari, University of California, USA
Foad Dabiri, University of California, USA
Philip Brisk, University of California, USA
Majid Sarrafzadeh, University of California, USA

Computer-aided Law and Advanced Technologies (CLAT)

Track Co-Chairs: Giovanni Sartor, University of Bologna, Italy
Jeremy Pitt, Imperial College of London, UK
Alessandra Villecco Bettelli, University of Bologna, Italy

Track Editorial.....284

Compensating the Creativity in the Digital World: Reconciling Technology and Culture 286
Mindaugas Kiskis, Mykolas Romeris University, Lithuania
Rimantas Petrauskas, Mykolas Romeris University, Lithuania

A Formal Logic-based Language and an Automated Verification Tool for Computer Forensic Investigation 291
Slim Rekhis, University of Carthage, Tunisia
Noureddine Boudriga, University of Carthage, Tunisia

Sequence Modelling for Sentence Classification in a Legal Summarisation System…….....296
Ben Hachey, Univeristy of Edinburgh, Scotland
Claire Grover, Univeristy of Edinburgh, Scotland

The employment of XML Standards in Electronic Judicial Proceedings ……. 301
Alessandra Villecco Bettelli, University of Bologna, Italy

Poster Paper

Honeynet based Distributed Adaptive Network Forensics and Active Real Time Investigation ….306
Wei Ren, Zhongnan University of Economics and Law, China
Hai Jin, Huazhong University of Science & Technology, China

Computer Security (SEC)

Track Co-Chairs: Giampaolo Bella, Università di Catania, Italy
Peter Ryan, University of Newcastle upon Tyne, UK

Track Editorial.....308

SELS: A Secure E-mail List Service 310
Himanshu Khurana, University of Illinois, USA
Adam Slagell, University of Illinois, USA
Rafael Bonilla, University of Illinois, USA

k-gram Based Software Birthmarks **318**
Ginger Myles, University of Arizona, USA
Christian Collberg, University of Arizona, USA

A ZKP-based Identification Scheme for Base Nodes in Wireless Sensor Networks **323**
Dev Anshul, Honeywell Technology Solutions Lab, India
Suman Roy, Honeywell Technology Solutions Lab, India

Efficient Diffie-Hellmann TwoParty Key Agreement Protocols based on Elliptic Curves **328**
Maurizio Adriano Strangio, University of Rome, Italy

Formal Specification of Role-based Security Policies for Clinical Information Systems **336**
Karsten Sohr, Universität Bremen, Germany
Michael Drouineaud, Universität Bremen, Germany
Gail-Joon Ahn, University of North Carolina at Charlotte, USA

Efficient Support for Enterprise Delegation Policies **344**
Victoria Ungureanu, Rutgers University, USA

Preventing Race Condition Attacks on File-Systems **350**
Prem Uppuluri, University of Missouri – Kansas City, USA
Uday Joshi, University of Missouri – Kansas City, USA
Arnab Ray, State University of New York at Stony Brook, USA

Mediation Security Specification and Enforcement for Heterogeneous Databases **358**
Li Yang, Florida International University, USA
Raimund K. Ege, Florida International University, USA
Huiqun Yu, East China University of Science & Technology, China

An Attribute-Based Access Matrix Model **363**
Xinwen Zhang, George Mason University, USA
Yingjiu Li, Singapore Management University, Singapore
Divya Nalla, Singamore Management University, Singapore

Constraint Solving and Programming (CSP)

Track Co-Chairs: Stefano Bistarelli, Università degli studi "G. D'Annunzio" di Chieti-Pescara, Pisa, Italy
Eric Monfroy, University of Nantes, France
Barry O'Sullivan, University College Cork, Ireland

Track Editorial **368**

A Branch-Price-and-Propagate Approach for Optimising IGP Weight Setting subject to Unique Shortest Paths **370**
Farid Ajili, Imperial College London, UK
Robert Rodosek, Imperial College London, UK
Andrew Eremin, Imperial College London, UK

Breaking Value Symmetries in Matrix Models using Channeling Constraints **375**
Y.C. Law, The Chinese University of Hong Kong, Hong Kong
J.H.M. Lee, The Chinese University of Hong Kong, Hong Kong

Controlled Propagation in Continuous Numerical Constraint Networks **381**
Frédéric Goualard, Laboratoire d'Informatique de Nantes, France
Laurent Granvilliers, Laboratoire d'Informatique de Nantes, France

Hybrid Lagrangian Relaxation for Bandwidth-Constrained Routing: Knapsack Decomposition **387**
Wided Ouaja, Imperial College London, UK

Barry Richards, Imperial College London, UK

Limited Assignments: A New Cutoff Strategy for Incomplete Depth-First Search……..... 392
Roman Bartàk, Charles University, Czech Republic
Hana Rudovà, Masaryk University, Czech Republic

On the Computational limits of Infinite Satisfaction ……..... 397
Stefan Dantchev, University of Durham, UK
Frank D. Valencia, LIX École Polytechnique de Paris, France

Solving Strategies using a Hybridization Model for Local Search and Constraint Propagation...402
Tony Lambert, Université de Angers, France
Eric Monfroy, Université de Nantes, France
Frédéric Saubion, Université de Angers, France

Timid Acquisition of Constraint Satisfaction Problems.....408
Sarah O'Connell, University of College Cork, Ireland
Barry O'Sullivan, University of College Cork, Ireland
Eugene C. Freuder, University of College Cork, Ireland

Poster Papers

The Shortest Route Cut and Fill Problem in Linear Topological Structure.....413
Songshan, Zhongshan University, China
Guo Weixing Li, Zhongshan University, China
Andrew Lim, The Hong Kong University of Science & Technology, Hong Kong
Fan Wang, The Hong Kong University of Science & Technology, Hong Kong

Coordination Models, Languages and Applications (CM)

Track Co-Chairs: Sascha Ossowski, Universidad Rey Juan Carlos, Spain
Ronaldo Menezes, Florida Institute of Technology, USA

Track Editorial.....415

LighTS: A Lightweight, Customizable Tuple Space Supporting Context-Aware Applications 417
Gian Peitro Picco, Dip. Di Elettronica e Informazione, Italy
Davide Balzarotti, Dip. Di Elettronica e Informazione, Italy
Paolo Costa, Dip. Di Elettronica e Informazione, Italy

A Timed Extension of ReSpecT 424
Alessandro Ricci, Università di Bologna, Italy
Mirko Viroli, Università di Bologna, Italy

Formal Modeling and Quantitative Analysis of KLAIM-based Mobile Channels.....432
Rocco De Nicola, Università di Firenze, Italy
Diego Latella, C.N.R- I.S.T.I . - Italy
Mieke Massink, C.N.R. – I.S.T.I. - Italy

MoCha-pi an Exogenous Coordination Calculus based on Mobile Channels 440
Juan Guillen-Scholten, Centrum voor Wiskunde en Informatica, The Netherlands
Farhad Arbab, Centrum voor Wiskunde en Informatica, The Netherlands
Frank de Boer, Centrum voor Wiskunde en Informatica, The Netherlands
Marcello Bonsangue, Lieden University, The Netherlands

Multi-coordination of Mobile Agents; a Model and a Component-based Architecture..... 447
Giancarlo Fortino, Università della Calabria, Italy
Wilma Russo, Università della Calabria, Italy

A Semantic Framework for the Recursive Specification of Interaction Protocols **455**
Juan-Manuel Serrano, University Rey Juan Carlos, Spain
Sascha Ossowski, University Rey Juan Carlos, Spain

Implicit Environment-based Coordination in Pervasive Computing **461**
Amine Tafat, Fribourg University, Switzerland
Michele Courant, Fribourg University, Switzerland
Béat Hirsbrunner, Fribourg University, Switzerland

Agent Coordination for Bus Fleet Management **466**
María-Victoria Belmonte, Universidad de Malaga, Spain
Jose-Luis Pérez-de-la-Cruz, Universidad de Malaga, Spain
Francisco Triguero, Universidad de Malaga, Spain
Alberto Fernández, Universidad Rey Juan Carlos, Spain

Poster Paper

Self-Organization and Computer Security **471**
Ronaldo Menezes, Florida Tech, USA

Data Mining (DM)

Track Chair: Hasan M. Jamil, Wayne State University, USA
Track Co-Chair: Rosa Meo, Università di Torino, Italy

Performance Bottleneck in Time-Series Subsequence Matching **473**
Sang-Wook Kim, Hanyang University, Korea
Byeong-Soo Jeong, Kyung Hee University, Korea

DrC4.5: Improving C4.5 by Means of Prior Knowledge **478**
Miriam Baglioni, University of Pisa, Italy
Barbara Furletti, University of Pisa, Italy
Franco Turini, University of Pisa, Italy

Mining Web Content Outliers using Structure Oriented Weighting Techniques and N-grams **486**
Malik Agyemang, University of Calgary, Canada
Ken Barker, University of Calgary, Canada
Rada S. Alhajj, University of Calgary, Canada

Finding Frequent Itemsets by Transaction Mapping **492**
Mingjun Song, Univeristy of Connecticut, USA
Sanguthevar Rajasekaran, University of Connecticut, USA

LS^3: A Linear Semantic Scan Statistic Technique for Detecting Anomalous Windows **497**
Vandana Janeja, Rutgers University, USA
Vijayalakshmi Atlrui, Rutgers University, USA

A "Go With the Winners" Approach to Finding Frequent Patterns **502**
Todd Ebert, California State University, Long Beach, USA
Darin Goldstein, California State University, Long Beach, USA

Discovery and Regeneration of Hidden Emails **507**
Giuseppe Carenini, University of British Columbia, Canada
Raymond Ng, University of British Columbia, Canada
Xiaodong Zhou, University of British Columbia, Canada
Ed Zwart, University of British Columbia, Canada

Discovery and Regeneration of Hidden Emails.....**507**
Giuseppe Carenini, University of British Columbia, Canada
Raymond Ng, University of British Columbia, Canada
Xiaodong Zhou, University of British Columbia, Canada
Ed Zwart, University of British Columbia, Canada

A Hybrid Approach for Multiresolution Modeling of Large-Scale Scientific Data…… **515**
Tina Eliassi-Rad, Lawrence Livermore National Laboratroy, USA
Terence Critchlow, Lawrence Livermore National Laboratory, USA

Rearranging Data Objects for Efficient and Stable Clustering.....**523**
Gyesung Lee, Dankook University, Korea
Xindong Wu, University of Vermont, USA
Jinho Chon, Dankook University, Korea

Spatial Contextual Noise Removal for Post Classification Smoothing of Remotely Sensed Images…… **528**
Yu Qian, The University of Texas at Dallas, USA
Kang Zhang, The University of Texas at Dallas, USA
Fang Qiu, The University of Texas at Dallas, USA

Distributed Approximate Mining of Frequent Patterns **533**
Claudio Silvestri, Università Ca' Foscari, Italy
Salvatore Orlando, Università Ca' Foscari, Italy

Detection and Prediction of Distance-Based Outliers.....**541**
Fabrizio Angiulli, ICAR-CNR, Italy
Stefano Basta, ICAR-CNR, Italy
Clara Pizzuti, ICAR-CNR, Italy

Poster Papers

Optimized Transitive Association Rule: Mining Significant Stopover between Events…… **547**
Yasuhiko Morimoto, Hiroshima University, Japan

A Model for Association Rules Based on Clustering **549**
Carlos Ordonez, Teradata, NCR, USA

Circle: Design and Implementation of a Classifier Based on Circuit Minimization…….. .....**551**
Mehmet Dalkilic, Indiana University, USA
Arijit Sengupta, Indiana University, USA

Mining Concept Associations for Knowledge Discovery in Large Textual Databases…….....**553**
Xiaowei Xu, University of Arkansas at Little Rock, USA
Mutlu Mete, University of Arkansas at Little Rock, USA
Nurcan Yuruk, University of Arkansas at Little Rock, USA

A Relatedness-based Data-driven Approach to Determination of Interestingness of Association Rules **555**
Rajesh Natarajan, Indian Institute of Management Lucknow, India
B. Shekar, Indian Institute of Management Bangalore, India

Data Streams (DS)

Track Co-Chairs: Jesús S. Aguilar-Ruiz, University of Seville, Spain
S. Muthukrishnan, Rutgers University, USA

Track Editorial **557**

Intregrated Resource Management for Data Stream Systems **559**
Henrike Berthold, Dresden University of Technology, Germany
Sven Schmidt, Dresden University of Technology, Germany
Wolfgang Lehner, Dresden University of Technology, Germany
Claude-Joachim Hamann, Dresden University of Technology, Germany

Quality-Driven Evaluation of Trigger Conditions on Streaming Time Series **567**
Like Gao, University of Vermont, USA
Min Wang, IBM T.J. Watson, USA
X. Sean Wang, University of Vermont, USA

Incremental Rule Learning based on Example Nearness from Numerical Data Streams **572**
Francisco Ferrer-Troyano, Av. Reina Mercedes S/N, Spain
Jesus Aguilar-Ruiz, Av. Reina Mercedes S/N, Spain
Jose C. Riquelme, Av. Reina Mercedes S/N, Spain

Learning Decision Trees from Dymanic Data Streams **577**
João Gama, Univ. do Porto, Portugal
Pedro Medas, Univ. do Porto, Portugal
Pedro Rodrigues, Univ. do Porto, Portugal

Poster Paper

Wavelet Density Estimators over Data Streams **582**
Christoph Heinz, Philipps University Marburg, Germany
Bernhard Seeger, Philipps University Marburg, Germany

Database Theory, Technology and Applications (DTTA)

Track Co-Chairs: Ramzi A. Haraty, Lebanese American University, Lebanon
Apostolos N. Papadopoulos, Aristotle University of Thessaloniki, Greece
Junping Sun, Nova Southeastern University, USA

Track Editorial **584**

Optimization of Subsequence Matching Under Time Warping in Time-Series Databases……. **585**
Man-Soon Kim, Kangwon National University, Korea
Sang-Wook Kim, Hanyang University, Korea
Miyoung Shin, Electronics and Telecommunications Research Institute, Korea

Identifying Topological Predicates for Vague Spatial Objects **591**
Alejandro Pauly, University of Florida, USA
Markus Schneider, University of Florida, USA

A Flexible Approach to User-defined Symbolic Granularities in Temporal Databases…… **596**
Lavina Egidi, Università del Piemonte Orientale, Italy
Paolo Terenziani, Università del Piermonte Orientale, Italy

Hierarchical Binary Histograms for Summarizing Multi-Dimensional Data **602**
F. Furfaro, University of Calabria, Italy
G.M. Mazzeo, University of Calabria, Italy
D. Saccà, ICAR-CNR, Italy
C. Sirangelo, University of Calabria, Italy

Image Domain Formalization for Content-Based Image Retrieval **608**
Caetano Triana Jr, University of Sao Paulo at Sao Carlos, Brazil

Josiel M. Figueiredo, Federal University of Mato Grosso, Brazil
Agma J.M. Traina, University of Sao Paulo at Sao Carlos, Brazil

Distributed Evaluation of Generalized Path Queries **614**
Dan Stefanescu, Suffolk University, USA
Alex Thomo, University of Victoria, Canada
Lida Thomo, University of Macedonia, Greece

Accelerating Approximate Similarity Queries using Genetic Algorithms **621**
Renato Bueno, University of Sao Paulo at Sao Carlos, Brazil
Agma J.M. Traina, University of Sao Paulo at Sao Carlos, Brazil
Caetano Traina Jr., University of Sao Paulo at Sao Carlos, Brazil

Optimizing Existential Queries in Stratifiable Deductive Databases **627**
Andreas Behrend, University of Bonn, Germany

Jelly View - A Technology for Arbitrarily Advanced Queries within RDBMS **633**
Igor Wojnicki, University of Missouri-St. Louis, USA
Antoni Ligeza, University of Science and Technology, Poland

Cost-Efficient Processing of Min/Max Queries over Distributed Sensors with Uncertainty……..... **638**
Zhenyu Liu, University of California, USA
Ka Cheung Sia, University of California, USA
Junghoo Cho, University of California, USA

Graph Transformation to Infer Schemata from XML Documents. **646**
Luciano Baresi, Politecnico di Milano, Italy
Elisa Quintarelli, Politecnico di Milano, Italy

Finding an Optimum Edit Script between an XML Document and a DTD. **651**
Nobutaka Suzuki, University of Tsukuba, Japan

Automatic Wrapper Maintenance for Semi-Structured Web Sources Using Results from Previous Queries **658**
Juan Raposo, University of A Coruña, Spain
Alberto Pan, University of A Coruña, Spain
Manuel Álverez, University of A Coruña, Spain
Ángel Viña, University of A Coruña, Spain

Supporting Efficient Query Processing on Compressed XML Files **664**
Yongjing Lin, University of Texas at Dallas, USA
Youtao Zhang, University of Texas at Dallas, USA
Quanzhong Li, IBM Almaden Research Center, USA
Jun Yang, University of California, USA

ERONTO: A Tool for Extracting Ontologies from Extended E/R Diagrams **670**
Sujatha R. Upadhyaya, Indian Institute of Technology Madras, India
P Sreenivasa Kumar, Indian Institute of Technology Madras, India

User-Defined View Automation of Genomic Databases **675**
Andrew J. Robinson, Latrobe University, Austria
Wenny Rahayu, Latrobe University, Austria
Susanna Herd, Latrobe University, Austria
Tharam Dillon, University of Technology Sydney, Australia

Poster Paper

An Information Theoretic Histogram for Single Dimesnional Selectivity Estimation…….....680
Chris Giannella, University of Maryland Baltimore County, USA
Bassem Sayrafi, Indiana University Bloomington, USA

Distributed Systems and Grid Computing (DSGC)

Track Co-Chairs: Robert van Engelen, Florida State University, USA
Madhu Govindaraju, Binghamton University, USA
Nectarios Koziris, National Technical University of Athens, Greece
Kleanthis Psarris, University of Texas at San Antonio, USA

Track Editorial.....682

The Pegasus Portal: Web Based Grid Computing 684
Gurmeet Singh, Information Sciences Institute, University of Southern California, USA
Ewa Deelman, Informaiton Sciences Institute, University of Southern California, USA
Gaurang Mehta, Informaiton Sciences Institute, University of Southern California, USA
Karan Vahi, Information Sciences Institute, Univeristy of Southern California, USA
Mei-Hui Su, Informaiton Sciences Institute, University of Southern California, USA
G. Bruce Berriman, Infrared Processing & Analysis Center, California Institute of Technology, USA
John Good, Infrared Processing & Analysis Center, California Institute of Technology, USA
Joseph Jacob, Jet Propulsion Laboratory, California Institure of Technology, USA
Daniel Katz, Jet Propulsion Laboratory, California Institute of Technology, USA
Albert Lazzarini, California Institute of Technology, USA
Kent Blackburn, California Institute of Technology, USA
Scott Koranda, University of Wisconsin-Milwaukee, USA

Dynamic Scheduling of Scientific Workflow Applications on the Grid: A Case Study…… 691
Radu Prodan, Univeristy of Innsbruck, Austria
Thomas Fahringer, University of Innsbruck, Austria

Replica Selection in Grid Environment: A Data-mining Approach 699
Rashedur M. Rahman, University of Calgary, Canada
Ken Barker, University of Calgary, Canada
Reda Alhajj, University of Calgary, Canada

A Grid-Based Architecture for Earth Observation Data Access 705
Giovanni Aloisio, University of Lecce, Italy
Massimo Cafaro, University of Lecce, Italy
Sandro Fiore, Univeristy of Lecce, Italy
Gianvito Quarta, University of Lecce, Italy

Realizing the Leasing Concept in COBRA-Based Applications.....710
Markus Aleksy, University of Mannheim, Germany
Axel Korthaus, Univeristy of Mannheim, Germany
Martin Schader, University of Mannheim, Germany

On Unit Task Linear-Nonlinear Two-Cluster Scheduling Problem 717
Zhichun Xiao, University of Arkansas, USA
Wing Ning Li, University of Arkansas, USA
John JingFu Jenq, Montclair State Univeristy, USA

Reliability in Three-Tier Systmes without Application Server Coordination and Persistent Message Queues 722
Francesco Quaglia, Università di Roma "La Sapeinza", Italy

Paolo Romano, Università di Roma "La Sapeinza", Italy

Policies Translation for Intregrated Management of Grids and Networks **728**
Ricardo Neisse, Federal University of Rio Grande do Sul, Brazil
Maria Janilce Bosquiroli Almeida, Federal University of Rio Grande do Sul, Brazil
Lisandro Zambenedetti Granville, Federal University of Rio Grande do Sul, Brazil
Liane Margarida Rockenbach Tarouco, Federal University of Rio Grande do Sul, Brazil

The Necklace-Hypercube: A Well Scalable Hypercube-Based Interconnection Network for Multiprocessors **733**
M. Monemizadeh, Sharif University of Technology & School of Computer Science, Iran
H. Sarbazi-Azad, Sharif University of Technology & School of Computer Science, Iran

The Recursive Transpose-Connected Cycles (RTCC) Interconnection Network for Multiprocessors **738**
M. Hoseiny Farahabady, IPM School of Computer Science, Iran
H. Sarbazi-Azad, Sherif Univeristy of Techology, Iran

A Solution for the Location Problem in Arbitrary Computer Networks Using Generic Dominating Sets **743**
Marco Aurélio Spohn, University of California at Santa Cruz, USA
J.J. Garcia-Luna-Aceves, University of California at Santa Cruz, USA

Node Clustering Based on Link Delay in P2P Networks **748**
Wei Zheng, Dartmouth College, USA
Sheng Zhang, Dartmouth College, USA
Yi Ouyang, Dartmouth College, USA
Fillia Makedon, Dartmouth College, USA
James Ford, Dartmouth College, USA

Poster Paper

Adaptation Point Analysis for Computation Migration/Checkpointing **754**
Yanqing Ji, Wayne State University, USA
Hai Jiang, Arkansas State University, USA
Vipin Chaudhary, Wayne State University, USA

Document Engineering (DE)

Track Chair: Rafael Dueire Lins, Universidade Federal de Pernambuco, Brazil

Track Editorial **756**

Handwritten Character Skeletonisation for Forensic Document Analysis **763**
Vladimir Pervouchine, NanyaSng Technological University, Singapore
Graham Leedham, Nanyang Technological University, Singapore
Konstantin Melikhov, Nanyang Technological University, Singapore

Performance Evaluation for Text Processing of Noisy Inputs **768**
Daniel Lopresti, Lehigh University, USA

Language Identification in Web Pages **773**
Bruno Martins, Universidade de Lisboa, Portugal
Mário J. Silva, Universidade de Lisboa, Portugal

An XForms Based Solution for Adaptable Documents Editing **778**
Istvan Beszteri, Helsinki University of Technology, Finland
Petri Vuorimaa, Helsinki University of Technology, Finland

Tool Support for Plagiarism Detection in Text Documents **785**
Stefan Gruner, Swansea Institute at the University of Wales, Great Britian
Stuart Naven, Swansea Institute at the Univerity of Wales, Great Britian

Semantic Document Engineering with WordNet and PageRank **791**
Paul Tarau, University of North Texas, USA
Rada Mihalcea, University of North Texas, USA
Elizabeth Figa, University of North Texas, USA

Poster Paper

Approximate XML Document Matching **796**
E. Rodney Canfield, University of Georgia, USA
Guangming Xing, Western Kentucky University, USA

Electronic Commerce Technologies (ECT)

Track Co-Chairs: Sviatoslav Braynov, University of Illinois at Springfield, USA
Manuel Núñez, Universidad Complutense de Madrid, Spain
Peter Wurman, North Carolina State University, USA

Track Editorial **798**

SVD-based Collaborative Filtering with Privacy **800**
Huseyin Polat, Syracuse University, USA
Wenliang Du, Syracuse University, USA

Implementing Private Vickrey Auctions **805**
Ismael Rodríguez, Universidad Complutense de Madrid, Spain
Natalia López, Universidad Complutense de Madrid, Spain

Scalable Security and Accounting Services for Content-based Publish/Subscribe Systems… **810**
Himanshu Khurana, University of Illinois, USA

Effort and Accuracy Analysis of Choice Strategies for Electronic Product Catalogs…… **817**
Jiyong Zhang, Swiss Federal Institute of Technology, Switzerland
Pearl Pu, Swiss Federal Institute of Technology, Switzerland

An Approach to Handle Real Time and Probabilistic Behaviors in e-commerce: Validating the SET Protocol **824**
Gregorio Diaz, University of Castilla-La Mancha, Spain
Kim Larsen, Aalborg University, Denmark
Juan Jose Pardo, University of Castilla-La Mancha, Spain
Fernando Cuartero, University of Castilla-La Mancha, Spain
Valentin Valero, University of Castilla-La Mancha, Spain

Privacy Preserving Learning in Negotiation **830**
Sheng Zhang, Dartmouth College, USA
Fillia Makedon, Dartmouth College, USA

Applying Model Checking to BPEL4WS Business Collaborations **835**
Jesús Arias Fisteus, Carlos III University of Madrid, Spain
Luis Sánchez Fernández, Carlos III University of Madrid, Spain
Carlos Delgado Kloos, Carlos III University of Madrid, Spain

Supporting e-commerce Systems Formalization with Choreography Languages **840**
Mario Bravetti, University of Bologna, Italy
Claudio Guidi, University of Bologna, Italy

Roberto Lucchi, University of Bologna, Italy
Gianluigi Zavattaro, University of Bolog-na, Italy

Embedded Systems: Applications, Solutions and Techniques (EMBS)

Track Co-Chairs: Alessio Bechini, Università di Pisa, Italy
Francois Bodin, IRISA, France
Cosimo Antonio Prete, Università di Pisa, Italy

Track Editorial **845**

Efficient On-line Identification of Hot Data for Flash Memory Management **847**
Jen-Wei Hsieh, National Taiwan University, Taiwan
Li-Pin Chang, National Taiwan University, Taiwan
Tei-Wei Kuo, National Taiwan University, Taiwan

A Fast Start-Up Technique for Flash Memory Based Computing Systems **852**
Keun Soo Yim, Seoul National University, Korea
Jihong Kim, Seoul National University, Korea
Kern Koh, Seoul National University, Korea

Motion Estimation Performance of the TM3270 Processor **859**
Jan-Willem van de Waerdt, Philips Semiconductors, TU Delft, USA
Gerrit A. Slavenburg, NVIDIA Corporation, USA
Jean-Paul van Itegem, Philips Semiconductors, USA
Stamatis Vassiliadis, TU Delft, The Netherlands

MSA: A Memory-Aware Utility Accrual Scheduling Algorithm **866**
Shahrooz Feizabadi, Real-Time Systems Laboratory Virginia Tech, USA
Binoy Ravindran, Real-Time Systems Laboratory Virginia Tech, USA
E. Douglas Jensen, The MITRE Corporation, USA

A Code Compression Advisory Tool for Embedded Processors **872**
Sreejith K. Menon, Indian Institute of Science Bangalore, India
Priti Shankar, Indian Institute of Science Bangalore, India

On Designing a Low-Power Garbage Collector for Java Embedded Devices: A Case Study **877**
Paul Griffin, Iowa State Univeristy, USA
Witawas Srisa-An, University of Nebraska-Lincoln, USA
J. Morris Chang, Iowa State University, USA

Armed E-Bunny: A Selective Dynamic Compiler for Embedded Java Virtual Machine Targeting ARM Processors **883**
Mourad Debbabi, Concordia University, Canada
Azzam Mourad, Concordia University, Canada
Nadia Tawbi, Laval University, Canada

Automatic Generation of Application-Specific Systems Based on a Micro-programmed Java Core **888**
Flavius Gruian, Lund University, Sweden
Per Andersson, Lund University, Sweden
Krzysztof Kuchcinski, Lund University, Sweden
Martin Shoeberl, JOP Design, Austria

Performance Analysis Framework for Large Software-Intensive Systems with a Message Passing Paradigm **894**
Christian Del Rosso, Nokia Research Center, Finland

Profiling and Mapping of Parallel Workloads on Network Processors **899**
Ning Weng, University of Massachusetts, USA
Tilman Wolf, University of Massachusetts, USA

Poster Papers

Real-Time Task Scheduling Anomaly: Observations and Prevention **906**
Ya-Shu Chen, National Taiwan University, Taiwan
Li-Pin Chang, National Taiwan University, Taiwan
Tei-Wei Kuo, National Taiwan University, Taiwan
Aloysius K. Mok, University of Texas at Austin, USA

Efficient Placement and Routing in Grid-Based Networks **908**
Roozbeh Jafari, UCLA, USA
Foad Dabiri, UCLA, USA
Bo-Kyung Choi, UCLA, USA
Majid Sarrafzadeh, UCLA, USA

Avoiding Data Conversions in Embedded Media Processors **910**
Ben Juurlink, Delft University of Technology, The Netherlands
Asadollah Shahbahrami, Delft University of Technology, The Netherlands
Stamatis Vassiliadis, Delft Universtiy of Technology, The Netherlands

Two-Level Assurance of QoS Requirements for Distributed Real-time and Embedded Systems . **912**
Shih-His Liu, University of Alabama at Birmingham, USA
Barrett Bryant, University of Alabama at Birmingham, USA
Jeffrey Gray, University of Alabama at Birmingham, USA
Rajeev Raje, Indiana University Purdue University Indianapolis, USA
Andrew Olson, Indiana University Purdue University Indianapolis, USA
Mikhail Auguston, Naval Postgraduate School, USA

Evolutionary Computation and Optimization (ECO)

Track Chair: Bryant A. Julstrom, St. Cloud State University, USA

Track Editorial **914**

Airspace Congestion Smoothing by Multi-objective Genetic Algorithm **916**
Delahaye Daniel, CENA, France
Sofiane Oussedik, ILOG, France
Puechmorel Stephane, EMAC, France

The Container Loading Problem **922**
Andrew Lim, Hong Kong University of Science and Technology, Hong Kong
Xingwen Zhang, Hong Kong University of Science and Technology, Hong Kong

An Artificial Immune System Approach to Document Clustering **927**
Na Tang, University of California, USA
V. Rao Vemuri, University of California, USA

A New Variable-Length Genome Genetic Algorithm for Data Clustering in Semeiotics **932**
I. De Falco, ICAR - CNR, Italy
E. Tarantino, ICAR - CNR, Italy
A. Della Cioppa, DIIIE - Univeristy of Salerno, Italy
F. Gagliardi, West – Sud s.r.l., Italy

A Novel Grammer-based Genetic Programming Approach to Clustering **937**
I. De Falco, ICAR-CNR, Italy

E. Tarantino, ICAR-CNR, Italy
A. Della Cioppa, DIIIE - Univeristy of Salerno, Italy
F. Fontanella, DIS - University of Naples, Italy

Heuristic Methods for Graph Coloring Problems **942**
A. Lim, Hong Kong University of Science and Technology, Hong Kong
Y. Zhu, Hong Kong University of Science and Technology, Hong Kong
Q. Lou, National University of Singapore, Singapore
B. Rodrigues, Singapore Management University, Singapore

A Tabu Search Algorithm for the Safe Transportation of Hazardous Materials……..... **949**
L. Zhand, Zhongshan University, China
S. Guo, Zhongshan Univeristy, China
Y. Zhu, University of California, USA
A. Lim, Hong Kong University of Science and Technology, Hong Kong

Call Me E-Mail: Arranging the Keyboard with a Permutation-Coded Genetic Algorithm…..... **956**
Jeffrey Goettl, General Mills Inc., USA
Alexander Brugh, Los Alamos National Laboratory, USA
Bryant Julstrom, St. Cloud State University, USA

Immunity-Based Intrusion Detection System Design, Vulnerability Analysis, and GENERTIA's Genetic Arms Race **961**
Haiyu Hou, Auburn University, USA
Gerry Dozier, Auburn University, USA

Poster Papers

Inductive Inference of Chaotic Series by Genetic Programming: a Solomonoff-based Approach **966**
I. De Falco, ICAR-CNR, Italy
E. Taratino, ICAR-CNR, Italy
A. Della Cioppa, DIIIE, University of Salerno, Italy
A. Passaro, DI, University of Pisa, Italy

Evolutionary Computation for Biclustering of Gene Expression..... **968**
Jesus S. Aguilar-Ruiz, University of Seville, Spain
Federico Divina, Tilburg University, The Netherlands

Handheld Computing (HHC)

Track Co-Chairs: Qusay H. Mahmoud, University of Guelph, Canada
Zakaria Maamar, Zayed University, UAE

Track Editorial..... **970**

Agent Technology and Reconfigurable Computing for Mobile Devices..... **972**
Timothy O'Sullivan, University of College Cork, Ireland
Richard Studdert, University of College Cork, Ireland

Pocket PC Beacons: Wi-Fi based Human Tracking and Following..... **979**
Ankit Arora, Ryerson University, Canada
Alexander Ferworn, Ryerson University, Canada

Comparing Table Views for Small Devices **984**
Carolyn Watters, Dalhousie University, Canada
Rui Zhang, Dalhousie, University, Canada
Jack Duffy, Dalhousie University, Canada

A Generic Serializer for Mobile Devices **990**
Mattia Monga, Università degli Studi di Milano, Italy
Angelo Scotto, Politecnico di Milano, Italy

Dynamic Group Communication in Mobile Peer-to-Peer Environments **995**
Eiko Yoneki, University of Cambridge Computer Lab, United Kingdom
Jean Bacon, University of Cambridge Computer Lab, United Kingdom

Efficiency of Prefix and Non-Prefix codes in String Matching over Compressed Databases on Handheld Devices **1002**
Abdelghani Bellaachia, The George Washington University, USA
Iehab AL Rassan, The George Washington University, USA

An Evaluation of Qinna, a Component-Based QoS Architecture for Embedded Systems……..... **1007**
Jean-Charles Tourneir, France Telecom R&D Division, France
Jean-Philippe Babau, CITI/NSA Lyon, France
Vincent Olive, France Telecom R&D Division, France

PUMAS: a Framework based on Ubiquitous Agents for Accessing Web Information Systems through Mobile Devices **1012**
Angela Carrillo-Ramos, Laboratoire LSR-IMAG, France
Jérôme Gensel, Laboratoire LSR-IMAG, France
Marlène Villanova-Oliver, Laboratoire LSR-IMAG, France
Hervé Martin, Laboratoire LSR-IMAG, France

Information Access and Retrieval (IAR)

Track Co-Chairs: Fabio Crestani, University of Strathclyde, UK
Gabriella Pasi, ITC-CNR, Italy

Track Editorial **1018**

Semantic Cores for Representing Documents in IR **1020**
Mustapha Baziz, IRIT- Université Paul Sabatier, France
Mohand Boughanem, IRIT- Université Paul Sabatier, France
Nathalie Aussenac-Gilles, IRIT- Université Paul Sabatier, France
Claude Chrisment, IRIT- Université Paul Sabatier, France

An Information Retrieval Model using Proximity Degree of Term Occurences **1027**
Michel Beigbeder, École NaitonaleSupérieure des Mines de Saint-Étienne, France
Annabelle Mercier, École NaitonaleSupérieure des Mines de Saint-Étienne, France

On Search in Peer-to-Peer File Sharing Systems **1032**
Wai Ge Yee, Illinois Institute of Technology, USA
Ophir Frieder, Illinois Institute of Technology, USA

Retrieving Lightly Annotated Images using Image Similarities **1040**
Masashi Inoue, National Institute of Informatics, Japan
Naonori Ueda, NTT Communication Science Laboratories, Japan

Methods for Learning Classifier Combinations: No Clear Winner **1047**
Dmitriy Fradkin, DIMACS, USA
Paul Kantor, DIMACS, USA

Text Classification Based on Data Partitioning and Parameter Varying Ensembles…….. ..... **1053**
Yan-Shi Dong, Shanghai Jiao Tong University, China
Ke-Song Han, Motorola Labs China Research Center, China

Rule-based Word Clustering for Document Metadata Extraction **1058**
Hui Han, Yahoo Inc., USA
Eren Manavoglu, The Pennsylvania State University, USA
Hongyuan Zha, The Pennsylvania State University, USA
Kostas Tsioutsiouliklis, Yahoo Inc., USA

M. Brain Blake, Georgetown University, USA
Kevin Cleary, Georgetown University, USA
Sohan R. Ranjan, Georgetown University, USA
Luis Ibanez, Kitware Incorporated, USA
Kevin Gary, Arizona State University, USA

Confirming the Influence of Educational Background in Pair-design Knowledge through Experiments **1449**
Gerardo Canfora, University of Sannio, Italy
Aniello Cimitile, University of Sannio, Italy
Felix Garcia, University of Castillas-La-Mancha, Spain
Mario Piattini, University of Castillas-La-Mancha, Spain
Corrado Aaron Visaggio, University of Sannio, Italy

Source Code-Based Software Risk Assessing **1456**
W. Eric Wong, University of Texas at Dallas, USA
Yu Qi, University of Texas at Dallas, USA
Kendra Cooper, University of Texas at Dallas, USA

A Case Study on Building COTS-Based System Using Aspect-Oriented Programming **1462**
Axel Anders Kvale, Norwegian University of Science and Technology, Norway
Jingyue Li, Norwegian University of Science and Technology, Norway
Reidar Conradi, Norwegian University of Science and Technology, Norway

Towards the Prioritization of Regression Test Suites with Data Flow Information…….. 1470
Matthew J. Rummel, Allegheny College, USA
Gregory M. Kapfhammer, Allegheny College, USA
Andrew Thall, Allegheny College, USA

A Strategy for Selecting Multiple Components.....1476
Ed Mancebo, Washington State University, USA
Anneliese Andrews, Washington State University, USA

NextGen eXtreme Porting – Structured by Automation.....1482
Pradeep Varma, IBM India Research Laboratory, India
Ashok Anand, IBM India Research Laboratory, India
Donald P. Pazel, IBM T.J. Watson Research Center, USA
Beth R. Tibbitts, IBM T.J. Watson Research Center, USA

High-Integrity Extreme Programming.....1489
Richard F. Paige, University of York, UK
Howard Chivers, University of York, UK
John A. McDermid, University of York, UK
Zoë R. Stephenson, University of York, UK

A Pattern-based Development Methodology for Communication Protocols 1495
YoungJoon Byun, The Pennsylvania State University at Erie, USA
Beverly A. Sanders, University of Florida, USA

Applying Agent Technology to Software Process Modeling and Process-Centered Software Engineering Environment 1500
Xinpei Zhao, Chinese Academy of Sciences, China
Keith Chan, The Hong Kong Polytechnic University, USA
Mingshu Li, Chinese Academy of Sciences, China

Plan Validation via Petri Nets in the Real-Time Performers Java Framework 1505
Andrea Trentini, Universitá degli Studi do Milano, Italy
Daniela Micucci, Universitá degli Studi do Milano, Italy

Organizing and Visualizing Software Repositories using the Growing Hierarchical Self-organizing Map.....1510
Songsri Tangsripairoj Mahidol University, Thailand
M. H. Samadzadeh, Oklahoma State Univeristy, USA

Verification of Behavioral Elements of UML Models using B 1517
Ninh-Thuan Truong, LORIA, Campus Scienfique, France
Jeanine Souquières, LORIA, Campus Scienfique, France

Marshaling and Unmarshaling Models Using Entity-Relationship Model 1524
Fei Cao, University of Alabama at Birmingham, USA
Barrett R. Bryant, University of Alabama at Birmingham, USA
Wei Zhao, University of Alabama at Birmingham, USA
Carol C. Burt, University of Alabama at Birmingham, USA
Rajeev R. Raje, Indiana University Purdue University Indianapolis, USA
Andrew M. Olson, Indiana University Purdue University Indianapolis, USA
Mikhail Auguston, Naval Postgraduate School, USA

Space-efficient Page-level Incremental Checkpointing 1529
Junyoung Heo, Seoul National University, Korea
Sangho Yi, Seoul National University, Korea
Yookun Cho, Seoul National University, Korea

Jiman Hong, Kwangwoon University, Korea
Sung Y. Shin, South Dakota State University, USA
Gwangil Jeon, Korea PolytechnicUniversity, Korea
Hanil Kim, Cheju National University Korea
Jongmoo Choi, Dankook University, USA

Poster Papers

Bridging AOP to SMP: Turning GCC into a Metalanguage Preprocessor 1534
Tiago Stein D'Agostini, Federal University of Santa Catarina, Brazil
Antônio Augusto Fröhlich, Federal University of Santa Catarina, Brazil

Synthesis of C++ Software for Automated Teller from CSPm Specifications 1536
Stephen Doxsee, University of Guelph, Canada
W.B. Gardner, University of Guelph, Canada

Mediation Framework Modeling and Verification by SAM.....1538
Li Yang, Florida International University, USA
Raimund K. Ege, Florida International University, USA
Huiqun Yu, East China University of Science & Technology, China

Trust, Recommendations, Evidence, and other Collaboration Know-how (TRECK)

Track Co-Chairs: Jean-Marc Seigneur, Trinity College Dublin, Ireland
Christian Damsgaard Jensen, Technical University of Denmark, Denmark

Track Editorial.....1540

Strong Pseudonymous Communication for Peer-to-Peer Reputation Systems 1541
Michael Kinateder, Universität Stuttgart, Germany
Ralf Terdic, Universität Stuttgart, Germany
Kurt Rothermel, Universität Stuttfart, Germany

Simulation of a Distributed Recommendation System for Perasive Networks.....1548
Seamus Moloney, Nokia Research Center, Finland

Component Based Trust Management in the Context of a Virtual Organization.....1553
Yanjun Zuo, University of Arkansas, USA
Brajendra Panda, University of Arkansas, USA

A Trust-enhanced Recommender System Application: Moleskiing 1560
Paolo, Avesani, ITC/irsT, Italy
Paolo Massa, ITC/irsT, Italy
Roberto Tiella, ITC/irsT, Italy

How to Incorporate Revocation Status Information into the Trust Metrics for Public-Key Certification.....1565
Kemel Bicakci, Vrije Universiteit, The Netherlands
Bruno Crispo, Vrije Universiteit, The Netherlands
Andrew Tanenbaum, Vrije Universiteit, The Netherlands

Ubiquitous Computing (UC)

Track Co-Chairs: George Roussos, University of London, UK
George Samaras, University of Cyprus, Cyprus

Track Editorial **1570**

From BuddySpace to CitiTag: Large-scale Symbolic Presence for Community Building and Spontaneous Play **1571**
Yanna Vogiazou, The Open University, UK
Mark Eisenstadt, The Open University, UK
Martin Dzbor, The Open University, UK
Jiri Komzak, The Open University, UK

Extending the EPC Network - The Potential of RFID in Anti-Counterfeiting **1578**
Thorsten Staake, University of St. Gallen, Switzerland
Frédéric Thiesse, University of St. Gallen, Switzerland
Elgar Fleisch, University of St. Gallen, Switzerland

Towards System Software for Physical Space Applications **1584**
Kaori Fujinami, Waseda Univeristy, Japan
Tatsuo Nakajima, Waseda Univeristy, Japan

Intelligent File Management in Ubiquitous Environments **1592**
Kartik Vishwanath, University of Missouri- Kansas City, USA
Arvind S. Gautam, University of Missouri- Kansas City, USA
Yugyung Lee, University of Missouri- Kansas City, USA

Poster Paper

Declarative Control of the Future Home Environment **1597**
Tope Omitola, University of Cambridge, United Kingdom

Web Technologies and Applications (WTA)

Track Co-Chairs: Cristina Cachero, Universidad de Alicante, Spain
Sara Comai, Politecnico di Milano, Italy
Maristella Matera, Politecnico di Milano, Italy

Track Editorial **1599**

An Approach to Acquire Semantic Relationships between Terms **1601**
Xia Sun, Xi'an Jiaotong University, China
Qinghua Zheng, Xi'an Jiaotong University, China

Survey of Semantic Annotation Platforms **1605**
Lawrence Reeve, Drexel University, USA
Hyoil Han, Drexel University, USA

Automatic Learning of Text-to-concept Mappings Exploiting WordNet-like Lexical Networks…. **1610**
Dario Bonino, Politecnico di Torino, Italy
Fulvio Corno, Politecnico di Torino, Italy
Federico Pescarmona, Politecnico di Torino, Italy

Reactivity on the Web: Paradigms and Applications of the Language XChange…… **1616**
Francois Bry, University of Munich, Germany
Paula-Lavinia Patranjan, University of Munich, Germany

Pollock: Automatic Generation of Virtual Web Services from Web Sites **1621**
Yi-Hsuan Lu, Pennsylvania State University, USA
Yoojin Hong, Pennsylvania State University, USA
Jinesh Varia, UBMatrix
Dongwon Lee, Pennsylvania State University, USA

Tuple Spaces for Self-Coordination of Web Services **1627**
Zakaria Maamar, Zayed University, United Arab Emirates
Djamal Benslimane, Claude Bernard Lyon 1 University, France
Chirine Ghedira, Claude Bernard Lyon 1 University, France
Qusay H. Mahmoud, University of Guelph, Canada
Hamdi Yahyaoui, Laval University, Canada

An OWL-S Based Approach to Express Grid Services Coordination **1632**
Laura Bocchi, University of Bologna, Italy
Paolo Ciancarini, University of Bologna, Italy
Rocco Moretti, University of Bologna, Italy
Valentina Presutti, University of Bologna, Italy
Davide Rossi, University of Bologna, Italy

Context-Aware Filtering for Collaborative Web Systems: Adapting the Awareness Information to the User's Context **1639**
Manuele Kirsch-Pinheiro, LSR Laboratory- IMAG, France
Marlène Villanova-Oliver, LSR Laboratory- IMAG, France
Jérôme Gensel, LSR Laboratory- IMAG, France
Hervé Martin, LSR Laboratory- IMAG, France

First Experiences on Constraining Consistency and Adaptivity of W2000 Models **1645**
Luciano Baresi, Politecnico di Milano, Italy
Sebastiano Colazzo, Politecnico di Milano, Italy
Luca Mainetti, Universitá degli Studi di Lecce, Italy

Measuring Structure Complexity for Class Diagrams: An Information Theory Approach……. **1650**
Yumig Zhou, Southeast University Nanjing, China
Baowen Xu, Southeast University Nanjing, China

Where Web Engineering Tool Support Ends: Building Usable Websites **1655**
Richard Atterer, Ludwig-Maximilians-University, Germany

A Product Line Architecture for Web Applications **1660**
Luca Balzerani, Università degli Studi di L'Aquila, Italy
Davide Di Ruscio, Università degli Studi di L'Aquila, Italy
Alfonso Pierantonio, Università degli Studi di L'Aquila, Italy
Guglielmo De Angelis, Istituto di Scienza e Tecnologie dell'Informazione, Italy

TestUml: User-Metrics Driven Web Applications Testing **1665**
Carlo Bellettini, Università degli Studi di Milano, Italy
Alessandro Marchetto, Università degli Studi di Milano, Italy
Andrea Trentini, Università degli Studi di Milano, Italy

Combining Queueing Networks and Web Usage Mining Techniques for Web Performance Analysis **1670**
Giuliano Casale, Politecnico di Milano, Italy

An Empirical Evaluation of Client-side Server Selection Policies for Accessing Replicated Web Services **1675**
Nabor Mendonça, Universidade de Fortaleza, Brasil
José Airton Silva, Universidade de Fortaleza, Brasil

SEcS: Scalable Edge-computing Services **1680**
Raffaella Grieco, Università di Salerno, Italy
Delfina Malandrino, Università di Salerno, Italy
Vittorio Scarano, Università di Salerno, Italy

Making XPath Reach for the Web-Wide Links **1685**
Lule Ahmedi, Universität Freiburg, Germany

Automatic Extraction of Informative Blocks from Webpages **1693**
Sandip Debnath, Pennsylvania State University, USA
Prasenjit Mitra, Pennsylvania State University, USA
C. Lee Giles, Pennsylvania State University, USA

SmartGate: A Smart Push-Pull Approach to Support Role-Based Security in Web Gateways .. **1698**
Raman Adaikkalavan, The University of Texas at Arlington, USA
Sharma Chakravarthy, The University of Texas at Arlington, USA

Sanitizing using Metadata in MetaXQuery **1703**
Hao Jin, Washington State University, USA
Curtis Dyreson, Washington State University, USA

Poster Papers

Learning System to Introduce GIS to Civil Engineers **1708**
Ronaldo Luna, University of Missouri – Rolla, USA
William T. Lawrence, University of Missouri – Rolla, USA
John Sullivan, University of Missouri – Rolla, USA
Richard Hall, University of Missouri – Rolla, USA
Michael Hilgers, University of Missouri – Rolla, USA
Matt Buechler, University of Missouri – Rolla, USA

wsBus: A Framework for Reliable Web Services Interactions **1710**
Abdelkarim Erradi, Univerisyt of New South Wales, Australia
Piyush Maheshwari, Univerisyt of New South Wales, Australia
